

# Public Safety Suite Enterprise

Maximize safety through innovation and automation

**CentralSquare Public Safety Enterprise Suite is the industry's broadest, smartest, most innovative public safety suite, featuring 911, CAD, RMS, Mobile and Jail—for true interoperability. Built specifically for medium and larger agencies, Enterprise Suite is designed to leverage cutting-edge technology for the fastest, most efficient, and effective response.**

## Unrivaled Depth and Breadth of Offerings

CentralSquare Enterprise Suite offers your agency a field-tested, comprehensive set of the industry's most innovative public safety solutions. Tight integration from end-to-end allows critical information to flow between 911, CAD, Records, Mobile and Jail software. Break down silos, pick up patterns and simplify your reporting with a complete suite of customizable solutions to meet all your needs.

## Work Smarter in the Field

Untether your responders from their laptops and put data and media—from calls for service and responder location to complete in-field reporting—in the palms of their hands. CentralSquare Mobile solutions are designed to function how your responders react and respond to evolving events. They see the most critical data, so they can focus and take safe, informed action during situations they face every day. Mobile mapping and intelligent routing optimize response times to save lives.

- ✓ Full bench of proven integrated solutions – 911, CAD, RMS, Mobile and Jail – in one suite
- ✓ Enables coordinated response between agencies, disciplines and jurisdictions
- ✓ Delivers the fastest response times with proprietary response planning
- ✓ Enhances operations and safety with responder situational awareness
- ✓ Eliminates repetitive data entry and optimizes your solutions

## Best Coordinated Response

The system is designed to handle complex and large call volumes. Send help faster with the most powerful unit recommendation algorithms to the most accurate location with caller location tools. Unlock dispatcher communication with callers through the latest technology for text-to-911 and video calling. Prioritize response with geographically informed visual cues that identify duplicate ringing calls from the same area. Share information seamlessly between responders, dispatchers and supervisors.

Patented CAD-to-CAD functionality, customizable CAD workflows and advanced recommendation capabilities are designed to facilitate multi-agency response, beyond borders and aid collaboration. Your public safety system is built to handle everyday traffic and the major events that strain your resources, such as multi-vehicle accidents, active shooter incidents or natural disasters.

 **Efficient Resource Utilization**

Simplify your reporting in the field or office and automate data analysis for searching across multiple sources and identifying patterns. Your public safety software system empowers your responders to spend less time on their technology and more time in the community. Connect analytics to daily assignments for proactive deployment in the right place and the right time.

**COMPLETE**

Most comprehensive and compelling public safety suite on premise or on the cloud

**PROVEN**

Most trusted solution for complex needs across multi-agency coordinated response, including Law, Fire and EMS

**EFFECTIVE**

Public safety without borders means out-of-the-box CAD to CAD functionality

**WHO WE ARE**

CentralSquare® Technologies is an industry leader in public safety and public administration software, serving over 8,000 organizations from the largest metropolitan city to counties and towns of every size across North America.

CentralSquare's broad, unified and agile software suite serves 3 in 4 citizens across North America. Our technology platform provides solutions for public safety, including 911, computer aided dispatch and records management. For public administration agencies, CentralSquare provides software for finance, human capital management, payroll, utility billing, asset management and community development.
